were out in full force.

At every entrance and at wooden barriers in strategic points in the building, uniformed police and plainclothesment checked credentials. In addition Interior doorways, stairways and many of the nooks and crannles of the capitol were manned by guards,

For those entering the Capitol for Johnson's speech, it was impossible to pass entrances without showing credentials at least twice.

Agents also searched the hand-bags of women congressional em-ployes waiting to-catch a glimpse of the President. Male bystand-

ers also were searched.

Along the route from the White House to the Capitol, senior employes of each government of fice were ordered to know "the identity and intent" of every person in rooms that overlooked the street used by Johnson. They were told to report to guards anyone who looked suspicious.

Thanksgiving Prayer BY REV. EARL W. RIDDLE

Almighty God, we lift up our hearts in gratitude to Thee, and for all Thy loving kindness we bless Thy Holy Name.

Into a world distraught with factions and sorrows, Thy healing hand is felt upon us. Out of the depths of our despair we are able to appreciate most the beauty and everlastingness of Thy Creation.

Of our own abilities and desires, we could not bring forth the mighty harvest which Thou has provided, Sunshine and health and strength come from Thee. O God, may we never forget Thy goodness unto us in these days.

Strengthen us in all goodness. May we be guided with courage to erase strife; to unite men of all races and creeds into one common brotherhood; to heal the broken hearted; and to stand steady in the face of adversity.

Grant that our homes be holy, our work honorable, and our pleasures and enjoyments pure. Guard and save us from every selfish use of the liberty in which we stand. Bless our just and lawful undertakings, and grant that in the time of prosperity we may not forget Thee, nor in the time of adversity think ourselves forgotten of Thee; through Jesus Christ, our Lord, we pray.

Pause, Consider

Originally, Thanksgiving was a day on which Americans paused to give thanks for a bountiful harvest. It was only fitting for a rural society to thank God for another successful year of farming. But the years have changed circumstances considerably, and American society is no longer primarily agricultural and rural.

THE SOLNDS OF THE DAY—The sounds are missing, too, You cannot hear in any proclamation the proclamation for the river and through the woods..." nor the gently stern tones of a father presiding over the hopeful rites of the wishbone. And where is the hopeful rites of the wishbone. And where is the moist, apicy aroma of the pumpkin ple and the pudding's flarme that always leart a little too high for maternal comfort? Perhaps presidents after dinner when the boy plitted his feats at the longer primarily agricultural and rural.

Many will discover they have far more for which to be thankful than they ever imagined. It's good for the individual to contemplate his blessings and give thanks to God from Whom all blessings flow.

#### WATCH FOR U. F.

United Fund workers, shifting the campaign into high gear, are calling on employes of Twin Falls firms. They are prepared to talk about the United Fund campaign and answer any questions that may arise. If anyone is concerned about some phase of United Fund, the time to get more information or a full explanation will be when campaign workers show

All residents of Twin Falls should be familiar with the purpose and aims of United Fund. It raises funds in one effort to support local activities of the American Red Cross, Arthritis and Rheumatism foundation, Young Men's Christian association, Young Women's Christian association, Boy Scouts, Camp Fire Girls and Salvation Army.

At the time workers speak to firms employes, they will have literature explaining United Fund.

Pledge cards-will-be-distributed, but here's one place where each individual can assist the United Fund drive im-measurably. Before United Fund workers show up, the individual can be thinking about his participation in U. F. Couples may want to discuss their contribution quarterly or by payroll deduction. There have been suggestions of the percentage destroyed.—New York Times have been suggestions of the percentage of income that would be suitable for a contribution. However, some citizens might want to give more, and there is no thought of limiting a person's partici pation.

Those who can determine their contri bution in advance will help the United Fund drive along. At this stage, each little boost will be a help.

#### CONGRESS SHOULD WORK

A suggestion for a "high-level congressional investigation" of the assassination of President Kennedy is ill-conceived, unnecessary and entirely out of order. It's a task that can be handled better and with more dispatch by the federal bureau of investigation,

Congress has dilly-dallied along for the entire year without accomplishing any thing worthy of note. If congress intends to do\_nnything during the present session, it will need every minute it can find in the remaining time.

There is no thought of suggesting members of congress would play politics over such an investigation. Congress simply is not the agency to conduct the probe. It not only couldn't accomplish as much as the FBI, but it likely would bungle whatever it did manage to find out. Members of congress are-or should be-lawmakers. Whatever else they may be, members of congress certainly aren't trained investigators. They've proved that time and time again.

MONUMENTS IT DESTROYS

Until the first blow fell no one was convinced that Penn station really would be demolished or that New York would permit this monumental act of vandalism against one of the largest and finest landmarks of its age of Roman degance. Somehow someone would surely find a way to prevent it at the last minute—no-so-litely held rescued by the hero—even while the promoters displayed the flashy renderings of the new sports arena and somewhat less than imperial commercial buildings to take its place.

#### NOT QUITE 90 PER CENT

A United States senator is quoted as deploring "the idea that the man who makes \$100,000 a year should be forced to contribute \$00 per cent of his licome to the cost of government." This

reflects a misimpression sometimes heard among laymen but surprising in an official. In the first place, assuming that the \$100,000 is, all taxable income, above exemptions and deductions, and is received by a bachelor or a mar

ductions, and is received by a bachelor or a married person filting a separate return, the highest rate he would pay is 87 per cent.

In the second place, this applies only to the top \$10,000 of the \$100,000. Lower rates, grading up from 20 per cent, apply to the lower brackets. According to the treasury tax rate schedule, his total tax would be \$67,320, or about 67 per cent.

This, to be sure, is a high take, And it does not include state and local taxes which cut into the remainder. But on the other stde it does not allow for possible tax saythers due to tax exemul invest-

ments, charitable gifts or a ceiling of 25 per cent To reach the 90 per cent bracket one would have to receive more than \$150,000 a year in fully taxable income. Suppose one received \$200,000 tyear, to take the maximum limpact of the pe

This is an extremely high rate, probably higher than in any other country on the globe, and ought to be reduced. But it is somewhat less than 90 per cent of the taxpayer's whole income. Christian Science Monitor

# Ability of Juniors to Assume Varsity Roles Is Key to T.F. Hoop Squad

only five practice sessions under their belts, the Bruins head into their shortest pre-conference schedule in 11 years. Their first Southern Idaho conference games will be Dec. 20 and 21 at Boise and Caldwell. They open at home, playing the Filer Wildcats Dec. 10.

Coach Paul Ostyn enters the season with five returning lettermen, two others deciding to forego the game and concentrate on grades. The re-mainder of what should be a 15man squad will be made up of juniors.

Highlighting the returning list is 5-foot, 11-inch Steve Beer, who accred 136 points Jast year and should be a leading scorer this season. He is joined by Art Vandantskit. denbark, 6 feet, 2's inches, who cracked the starting lineup late last season and scored 77 points.

Coming back for their second letters are Larry Hunter, 5-foot, 14-inch guard; Bob McClusky, 5-foot, 11 inch guard, and 8 foot, 2 inch forward Steve Woodall, McClusky, who should be the de-

fensive ace, saw limited action last year when a broken foot sidelined him at midseason.

"Right now our big problem is getting some height into the lineup," says coach Ostyn, "Our average isn't bad, but we'll be the shortest club in the conference and probably the district If "solic of these juntors don't come along in a burst".

come along in a hurry."

The biggest hope for height is 6 foot, 5 inch Paul Stover, a b 1001, 5 linch Paul Stover, a junior, who coach Ostyn had planned to use a lot. "Paul hurt his thumb during football and it still lan't right. That hurts us. I had halfway planned ou-him being a more than adequate center starter for us during the con-ference season. His timetable looks like it will be set back at least two weeks now."

There are two other tall juniors in George Smith, 6 feet, 34 inches, and Alan Brown, 6 feet, 2 inches. Both are forwards Guard prospects are softor Sleve Humphryes, a 6 footer, and juniors John Astorquia, 5 feet, 10 inches; Kirk Williams, 6 feet, and Bill Johnson, 6 feet.

"We could be a pretty good basketball team after the first of the year," coach Ostyn says, "provided these juniors come along quickly, Right-now we are hurling proven depth."

#### Matter of Life and Death

KILLER DISEASE—Diseases of the heart and circulatory system (cardiovascular) killed nearly four times as many people as cancer in 1962, latest year for which data is available. One out of every two deaths, or 54.3 per cent, were due to this cause. The ranking of the five death equese in Newschart was the same for both the age group under 65 and the group 65 and over, except that below the age of 65 diabetes was outranked by suicide and cirriosis of the liver. Data from National Office of Vital Statistics.

HEART OF THE MATTER—Of the 954,870 deaths from heart and blood vessel (cardiovascular) diseases in 1962, 54.9 per cent were caused by coronary heart disease, as shown on Newschart. Strokes accounted for 20.7 per cent, Non-rheumatic endocarditis refers to infections of the heart lining or valves; general arteriosclerosis refers to diseases of the arteries other than those in the heart or brain. Data from National Office of Vital Statistics.

#### YOUR BIRTHDAY and HOROSCOPE

THURSDAY, Nov. 28 — Born today, you have a creative nature which—works itself on—an in—dependent basis. Not one to fall back on ideas, or ideals, of the plant, you see and become at tached to your own visions of what you want to accomplish and how you want to accomplish it. Yet you are not impractical, for when it comes to "marketing" those accomplishments, you are farsighted, hardheaded, and capable of unremitting labor.

You have the courage of your convictions; thus you find it easy to follow through on any thing you believe to be right. Your calm and unhurried manner belies the energy and fire take time to think things underneath and, once you get started in a direction, you put your whole heart and soul into it, hanging on—like a buildog right up to the finish line.

You ender and your own convictions. In marriage, therefore, you must strive to achieve a singleness of purpose with your mate; otherwise, you may find your whole household working at cross purposes.

#### Service Post For Veterans Is Discussed

Labor war feturned in New Zealand for the 1957-80 term but has not regained power in Australia.

However, the Liberal-Country Party coalition of Menzies held only a 62-60 edge over Labor in the recent parliament. That small majority brought on this Australian election, a year before time.

The word from New Zealand is that the 1,331,864 voters are likely to swing a little toward Labor but not sufficiently to unseat the national government which had a 46-34 majority in the last parliament.

#### Mrs. Johnson Similar to E. Roosevelt

WASHINGTON, Nov. 28 (NEA)
Claudia (Lady Bird) Johnson, the
new first lady of the United.
States, will present an image to
the world not unlike that of the late Eleanor Roosevelt.

Mrs. Johnson possesses much of the same buoyancy and out-going personality of that earlier lirst lady ac noted for her zest and mobility.

As wife of the vice president she would appear in the slums of Athens and then turn up at a school lunch program in Cyprus pouring milk for children.

She has stood in the "chow line" with peace corpsmen in Puerto Rico, rolled Red Cross with senators' wives in

She can dash through a crowded scheduled with aplomb, exhibiting at 51 the energy of a wontal much younger.

Mrs. Johnson's devotion to her role as hostess will, of course, be put sharply to the test, now that she takes up residence at 1600 Pennsylvania avenue.

Her social activities in the past have reflected not just a sense of duty, but an honest pleasure in meeting people.

She recalls earlier times when as the wife of young Congress-man Johnson it meant much to her to be drawn into higher

circles.

Later, as wife of the vice president, she wanted it to be the same for others. Her entertainment lists have included not only foreign guests and dignitaries but young Washington wives and friends from Texas.
